

Cleaning & Sanitizing:

Prior to our opening, the **entire** clinic, all rooms and surfaces, will be cleaned and sanitized using a CDC approved nontoxic solution and a fogger machine. This same procedure will be followed at the end of each treatment day.

After each session, all surfaces that were touched, will be wiped down with an appropriate cleaning solution.

Restroom surfaces will be wiped down after each use.

Each child coming into the clinic will be provided with their own personalized supplies, as needed for their individual treatment, i.e. crayons, markers, playdoh etc. These supplies will be stored in a sealed zip loc bag when not in use. Any games or larger surfaces that are used, will be wiped down after each child.

The KidTherapy gym has been modified with the removal of certain pieces of equipment that could present challenges for sanitizing (i.e., ball pit).

Scheduling:

We will be limiting the number of children in the clinic to allow for social distancing.

We will be scheduling appointments on the hour to allow for 15 minutes between clients to properly clean and sanitize in between sessions.

Procedure for entering clinic:

Upon arrival at the clinic, please wait outside clinic doors, adhering to social distancing protocols. Your therapist will come outside and greet your child and walk them into the clinic.

All children being treated in the gym will enter and leave through the gym door. All clients seeing Anne Marie will enter and leave through the front door.

Prior to entering the clinic, temperatures will be checked and parents/care givers will confirm that children are not experiencing any symptoms of COVID 19.

In order to enter clinic, all clients are required to wear a face covering. Should your child have a problem wearing a mask let us know and we will discuss other options.

Before beginning each session and prior to leaving, all children will wash their hands.

There will be no waiting in the waiting room. All parents/care givers must wait in their cars or outside.

Anyone exhibiting symptoms of COVID19 will not be permitted to enter the clinic. This is at the discretion of the therapist.

Other Policies and Procedures:

All therapists and office staff will be required to wear face coverings, at all times, in the clinic.

All therapists and office staff will have their temperatures taken prior to the start of treatment each day.

All therapists and office staff will not be permitted into the clinic if they are exhibiting any symptoms of COVID19.

Therapists will wash their hands before greeting each client and after each treatment session.

Anyone who tests positive for COVID 19 or has contact with someone who tests positive for COVID19 is required to report that immediately to their therapist. This will allow us to take proper action in sanitizing the clinic and perform contact tracing, if necessary.
